

# Paulo Freitas

Senior Product Designer

United States | [dudufreitas28@gmail.com](mailto:dudufreitas28@gmail.com) | [linkedin.com/in/freitas-pauloo](https://linkedin.com/in/freitas-pauloo) | [paulo.dudesign.us](https://paulo.dudesign.us)

## SUMMARY

---

Product designer who ships in code, not just mocks. I've designed complex B2B and AI products, built Fortune 500-facing experiences for Audi, Samsung, 3M, Ford, Sony + Honda, and Costco, and founded Frameline, a design-engineering surface library live in production. Looking for a senior IC role where craft, UX strategy, and working close to engineering matter.

## WORK EXPERIENCE

---

### Amplif.AI

Jul 2025 - Apr 2026

Lead Product Designer · *Remote*

- Led AI-driven creative production across image, video, and interactive experiences, designing high-quality visuals, cinematic video, and rapid concept iterations at scale.
- Bridged creative strategy with product execution: prototyping UX flows in Figma and code, transforming concepts into testable products and marketing assets with speed and consistency.

### Frameline

Jan 2025 - Present

Founder & Product Designer · *Remote*

- Built Frameline ([frameline.ai](https://frameline.ai)), a design-engineering surface library for AI-era products: owned product definition, visual language, configurator UX, and full-stack implementation in React/Next.js.
- Shipped installable typed React components so teams adopt polished UI surfaces instead of default AI-product aesthetics: design-to-production code, not Figma handoffs.
- Designed and built the end-to-end product experience: component library, configurator, commerce flows, and documentation site deployed on Vercel.

### xix3D

Aug 2023 - Aug 2025

Product Designer · *Remote*

- Primary creative partner for Fortune 500 and global automotive clients (**3M, Ford, Audi, Samsung, Sony + Honda (Afeela), Costco**, Spandex, and The Wrap Institute), delivering product UX, brand systems, and go-to-market assets across enterprise partnerships.
- **3M Films, Zeno Platform:** Designed UI/UX for 3M's flagship retail technology product: kiosk experience, dealer portal, sales training academy, and rollout collateral deployed across dealerships.
- **Ford, Wrap Program:** Led creative for the automotive industry's first OEM-integrated aftermarket customization platform: vehicle configurator, Wrap Learning Academy (video + PDF guides), email flows, and dealer onboarding materials.
- **Afeela (Sony + Honda):** Designed the EV personalization experience: configurator UX, real-time 3D visualization, checkout/pricing flow, companion mobile app, and post-purchase delivery tracking.
- **Audi / Samsung / 3M Summit:** Produced CGI and presentation assets for global automotive summit launches showcasing next-generation vehicle customization technology.
- **Costco, Kirkland Signature:** Created automotive brand identity and packaging for Kirkland Signature products: credible specialist-grade positioning within Costco's value-first retail context.

### DUBRANDING

Jan 2021 - Apr 2025

Creative Director & Founder · São Paulo, Brazil · *Remote clients globally*

- Founded and led an international creative agency specializing in SaaS brand development for clients across the US, Canada, UK, Hungary, Germany, Portugal, and Spain.
- Built a distributed team delivering brand strategy, visual identity, web design, and digital marketing: scalable brand systems supporting international expansion and user acquisition.
